

Ringtones

You can select a ringtone for your handset. This makes it easier to tell whether your phone or another person's phone is ringing if you are sharing an office. Ringtones are set from the preferences menu.

Opening the preferences menu

To open the preferences menu:

- Press the **applications** button
- Use the **navigation bar** to highlight **Preferences**
- Press the **select** button

Press the **Applications** button to access the preferences menu

Use the navigation bar to highlight preferences and then press **select**

Setting your ringtone

- In the preferences menu, use the **navigation bar** to highlight and select **Ringtone**
- Use the navigation bar to move up or down the list of ringtones
- Press the **Play** softkey to hear ringtones
- Highlight your chosen ringtone and press the **Set** softkey
- Press the **Apply** softkey to confirm your selection

To hear the highlighted ringtone, press the **Play** softkey

To keep the highlighted ringtone, press the **Set** softkey

Press the **Apply** softkey to confirm your selection
