21-May-22	POS	Shop	£25.00		£8,755.55

You need to ensure that over the 28-day period, the closing balance on your account does not drop below the amount of money you are required to show.

In this example, the balance stays above the maintenance requirement of £9207.00.

If you owe any tuition fees, you will also need to add this money onto the amount you need to show as available.

In this example, 28 days back from the 25th June 2022 would be the 28th May 2022.

As no transactions take place on this date, you would need to refer to the first transaction on the statement before the 28th May 2022.

Therefore, your 28-day period will start on the 27th May 2022.

Had the bank statement in this example been issued earlier than the 25th June 2022 then the application may have been refused if the 28-day period began on the 21st May 2022.

This is because the balance was below £9207.00 on this date.

## Additional Notes

1. The bank statements or evidence you show for funds must also show any outstanding tuition fees not paid to the University. Any amounts already paid will be indicated on your CAS
2. Any additional payments made to the University after your visa application has been submitted may not be taken into account - it is **vital** that you contact us as soon as any additional fees have been paid
3. If you are using an electronic bank statement (i.e. a print out from your branch or online transaction history, the bank statement must be stamped on **every page** by your bank branch
